## Who We Are and Why YOU Should Join!

---

The International Association of Therapeutic Drug Monitoring and Clinical Toxicology (IATDMCT) is an organization formed by an international group of scientists and physicians, to promote the related disciplines of therapeutic drug monitoring and clinical toxicology worldwide.

Our aims are:

- To promote the knowledge and understanding of clinical drug analysis and interpretation of results
- To enhance communication between scientists and physicians of all disciplines involved in therapeutic drug monitoring and clinical toxicology
- To encourage the effective application of therapeutic drug monitoring and clinical toxicology; with the aim of optimizing clinical drug use and maximizing the clinical and economic benefits.

### WHO SHOULD JOIN?

Professionals with an interest in either therapeutic drug monitoring or clinical toxicology are urged to join. No other society promotes the interest of TDM and clinical toxicology internationally.

We need your ideas, involvement, criticisms and encouragement. We need your knowledge, skill and insight. We wish to encourage cross-disciplinary fertilization leading to more effective professional solutions.

We suggest, as a non-exclusive guide, the professionals who would benefit from membership:

- Clinical Chemists
- Pharmacologists
- Toxicologists (Clinical and Forensic)
- Physicians
- Pharmacists
- Environmental Analysts/Toxicologists
- Medical Technologists

### MEMBERSHIP BENEFITS

#### *Publications*

- The online version of the official journal of IATDMCT, *Therapeutic Drug Monitoring*, which covers therapeutic drug monitoring and clinical toxicology, is complimentary to all members. The printed version is available to members at significantly reduced rates to members
- *Compass* the IATDMCT newsletter keeps you regularly in touch with your fellow members
- Our web page contains news about Regional Conferences, upcoming conferences of interest, hyperlinks to many resources, and a Members Only area that contains a Member Directory, and much more!

#### *Scientific Activity*

- Regular biennial international meetings in varying international venues
- Opportunities for continuing education
- Participation on scientific committees
- Presentation of papers

#### *Networking*

- Network with colleagues from around the world
- Access to unrivalled expertise in the field of therapeutic drug monitoring and clinical toxicology
- Opportunity to participate on scientific committees
- Young Scientists' Interest Group

#### *Representation*

- The Association works to ensure effective intervention on issues relating to our professional interest at international levels.
